

**TORRENT**

## Discover Torrent

Torrent is Tradition's hybrid order management platform for trading foreign currency NDFs. The platform has rich functionality, low latency and ability to attract high-quality liquidity.

Torrent facilitates both hybrid and fully-electronic order entry, allowing users to manage orders via voice brokers and/or direct order entry. It offers a broad range of currencies across Latin America including CLP, COP, PEN and ARS, creating multiple pools of liquidity.

In addition to order submission, Torrent also delivers market data for the underlying instruments. Torrent allows clients to integrate their own proprietary system or into Independent Software Vendors via FIX protocol. Torrent's GUI is offered as a desktop application or an ultra-lightweight web-based client.

Developed in conjunction with leading market participants, Torrent provides brokers and traders with a hybrid platform for seamless interaction of voice and electronic order management.

Where applicable, orders successfully negotiated through Torrent will be executed on Tradition SEF, Inc. through the Introducing Broker firm affiliated with Tradition Group.

## Benefits of connecting and using Torrent for Latin America NDFs

**Liquidity** - Platform liquidity provided by global players

### Regulatory compliance

**Hybrid** - Combines the best of Broker interaction & electronic features

**STP** – Complete Straight Through Processing from SEF to Market Participants back office reporting entities, and clearers where required.

**Accessible** - via standard FIX API using Market Participant's own system, Independent Software Vendors, via Total Desktop or Total Web GUIs

**Transparent** – Visibility on price and size formation

## Features of Torrent

**Continuous Order Management** - Platform's Order Management Engine supports advanced order types such as All or None, Immediate Or Cancel Order, Top of Market, Iceberg, One Cancels Other, and Fill or Kill using a Price-Time priority.

**Auctions** - Designed to allow flexible management of auctions. Scheduling, multiple price determination and notifications.

**Workup** – The ability to individually negotiate the quantity of a transaction by the parties involved.

**Hybrid Interaction** - Continuous electronic provision combined with voice capability ensures access to a liquid market with continuous opposing orders.

**Counterparty Certainty** - Bilateral credit control with highlighting ensures counterparty can screen orders.

## About Tradition Group

Compagnie Financière Tradition (CFT) is one of the world's top interdealer broking firms, with a presence in 28 countries. In the last decade, the company has significantly expanded, primarily through organic growth.

Acting as a marketplace and an intermediary, CFT facilitates transactions between financial institutions and other professional traders in the capital markets. These transactions vary in scale and liquidity, from the simplest to the most sophisticated, the most liquid to the most illiquid.

### A global and diverse product offering

We provide brokerage services in a comprehensive range of financial and commodity-related markets.

The financial markets we cover include money markets, interest rate and currency derivatives, equities and equity derivatives, bonds and repurchase agreements, and credit derivatives.

Our commodity-related markets include derivatives in oil, natural gas, power, coal, weather, emissions, and precious metals.

We are a member of multiple exchanges, operating in both exchange-traded and over-the-counter markets. Tradition owns and operates Tradition SEF, Inc., a swap execution facility, in the U.S.

While we are a leading specialist in derivatives, we have also expanded our brokerage offering in cash bonds and equities.

## Matching clients across five continents
